**EXPANDABLE BRAIDED  
POLYESTER SLEEVING  
"SERIES TSRI"**

## General features

The braided sleeving of the Series TSRI, made from single polyester strands, is particularly suitable for protecting electrical cables and wiring. It is flame-retardant, insulating, resistant to abrasion and to the marine atmosphere. This series is available in diameters ranging from 4 mm to 60 mm and upon special request diameters of up to 90 mm can be made available.

## Technical features

• Operating temperature	-50 °C ÷ +150 °C	
• Maximum temperature for a short period	+220 °C	
• Melting pot	+250 °C	
• Flammability		ACCORDING TO STANDARD UL VW-1
• Halogen Free	Passed	ACCORDING TO STANDARD UNI EN 14582:2007
• Directive	2002/95/CE RoHS	
• Standard colours	Grey - Black	
• Other diameters and colours	Upon request	
• Packing	On reels
