

## Intumescent gaskets for DES family

**NEW**

- ▶ Intumescent gaskets for fire barrier
- ▶ In compliance with EN1363-1 and EN45545-3
- ▶ **Direct installation on DES Frames**
- ▶ Cost effective and can be ordered separately from the frames

Model	Code	L1 [mm]	L2 [mm]	Pcs /pack
GKD-24	1734080824	146	130	1
GKD-16	1734080816	120	103	
GKD-10	1734080810	99	33	
GKD-Q	1734080808	74	58	

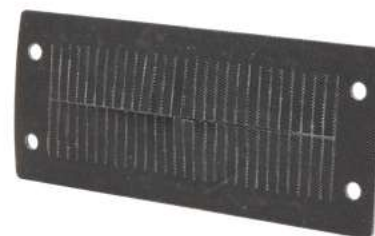

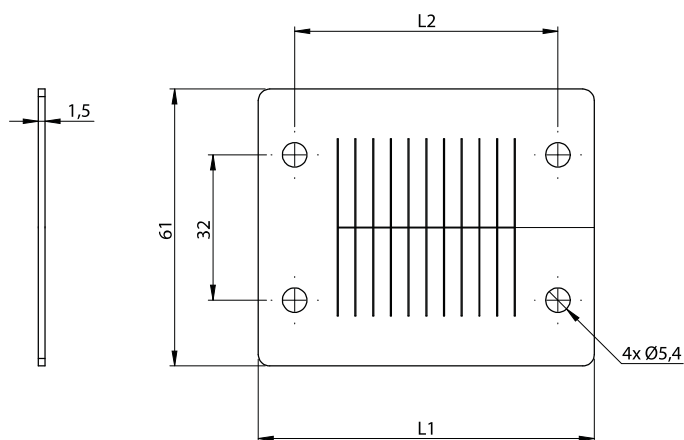

GKD series intumescent gaskets are used with DES, DES 24M frames for fire protection according to EN1363-1 and EN45545-3.

They consist of a flexible, intumescent material that expands under pressure with thermal influence. In the event of a fire, foam forms and a solid, pressure-resistant wall is created.

### Technical data

**Material:** graphite-based intumescent material

### Dimensions [mm]
