SPC K4G	1731052565	max. 14	SPC K4B	1731052656	

The SPC K grommets have a dual function: they can be used as "blind" grommets for future application of single cable without connector or they can be used as single grommet for one cable without connector. The size can be chosen between 4 models from 2,5 a 14mm diameter. The "K0" model cannot be perforated. The double membrane ensures the best water and dust protection together with a remarkable strain relief function.

Technical data

Material: TPE

Flammability: self-extinguishing acc. to UL94-V0 (grey or black)

Temperature: -40°C... +110°C (static)

Features: halogens and silicones free
